PROFILE

I graduated Vocational Qualification in Business Information Technology in June 2018. I've been on maternity leave, but I've been doing projects myself to practice what I've learned and learn more. As an employee, I am efficient and used to working under pressure. My goal is to work on interesting and challenging problems in tasks that support my professional development

EXPERIENCE

Web developer intern

Sitelogic, 01/18 – 04/18

- I did the last project to get a degree in PHP language and I drove to update the websites made by the company.

IT Support

Käpylä Library, 03/17 – 06/17

- I helped customers in using various devices, programs and online services.

Freelancer

Lima, 2007 – 2009

- I made websites for different companies and updated their web pages.

EDUCATION

Integrify

Web-developer, 11/19 – 05/20

- Training included React JS, Node, Express ja MongoDB.

Business College Helsinki

Vocational Qualification in Business Information Technology, 09/15 – 06/2018

- My studies oriented to programming code.

Stadin Adult Institute

Finnish language, 09/13 – 06/2014

- B1.1 Level
