PROFILE

I graduated Vocational Qualification in Business Information Technology in June 2018. I've been on maternity leave, but I've been doing projects myself to practice what I've learned and learn more. As an employee, I am efficient and used to working under pressure. My goal is to work on interesting and challenging problems in tasks that support my professional development

Web developer intern

Site Logic, 6.11.2016 – 20.01.2017 and 12.02.2018 – 18.05.2018
 - I did the last project to get a degree in PHP language and I drove to update the websites made by the company.

Digital Support

Käpylä Library, 18.01.2016 – 3.06.2016

 - I helped customers in using various devices, programs, online services and I made also librarian assistant duties.

Pollster

Rosenthal Research, Barcelona, 2009 – 2012

 - I took opinion surveys about different products and topics by telephone and in person.

Freelancer

On my own, Lima, 2007 – 2009

 - I made websites for different companies and updated their web pages.

EDUCATION

Integrify

Web-developer, 11.2019 – 05.2020
- Training included React JS, Node, Express, MongoDB, CSS and HTML.

Business College Helsinki

Vocational Qualification in Business Information Technology, 09.2015 – 06.2018
- My studies oriented to programming code. Training included Java, PHP, Javascript, SQL, CSS, HTML.

Stadin Adult Institute

Finnish language, 09.2013 – 06.2014
- B1.1 Level
